RISK DISCLOSURE STATEMENT

ELECTRONIC TRADING TERMS

AND

CLIENT AGREEMENT

Last Updated: 31 March, 2018

Risk Disclosure Statement

This notice is provided to you (the “Client” or “you”) because you are considering dealing with ILQ Australia Pty Ltd (hereinafter “the Company” or “ILQ”) in Foreign Exchange Contracts, Contracts for Difference, and other Derivatives Contracts (“Transactions”) either on a margin basis or otherwise.

This notice cannot and does not disclose or explain all of the risks and other significant aspects involved in dealing in these Transactions and was designed to explain in general terms the nature of the risks particular to dealing in these Transactions and to help the Client to take investment decisions on an informed basis.

Prior to applying for an account you should consider carefully whether trading in these Transactions is suitable for you in the light of your circumstances and financial situation. Margin FX and CFDs involve different levels of exposure to risk and, in deciding whether to trade in such instruments, you should be aware of the following points:

- Trading in Margin FX and CFDs (“OTC Derivatives”) carries a high degree of risk. The “gearing” or “leverage” involved in trading OTC derivatives means that a small initial margin payment can potentially lead to large losses. The geared nature of derivatives also means that Margin FX and CFDs trading can carry greater risks than conventional share trading, which is generally not geared.
- A relatively small market movement can lead to a proportionately much larger movement in the value of your investment, and this can work against you as well as for you.
- Most OTC derivatives are off-exchange derivatives. This might be considered to involve greater risk than an on-exchange derivative as there is no exchange market on which to close out an open position – you are only able to open and close your positions with us.
- Foreign markets will involve different risks to Australian markets. The potential for profit or loss from OTC derivatives relating to a foreign market or denominated in a foreign currency will be affected by fluctuations in foreign exchange rates. It is possible to incur a loss if exchange rates change to your detriment, even if the price of the instrument to which the OTC derivatives relates remains unchanged.
- Margin FX and CFDs are contingent liability transactions which are margined and require you to make a series of payments against the purchase price, instead of paying the whole purchase price immediately, and they may only be settled in cash.
- You may sustain a total loss of the margin that you deposit with us to establish or maintain a position. If the market moves against you, you may be called upon to pay substantial additional margin at short notice. If you fail to do so within the required time, your position may be liquidated at a loss and you will be liable for any resulting deficit. You will be deemed to have received a notice requiring the payment of such funds, even if you are not at home or do not receive the messages we leave for you, if the notices are delivered to your nominated contact points.
- Even if a Margin FX and CFD is not margined, it may still carry an obligation to make further payments in certain circumstances over and above any amount paid when you entered into the contract.
- Under certain trading conditions it may be difficult or impossible to liquidate a position. This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that trading in the underlying market is suspended or restricted.
- Placing a Stop Order will not necessarily limit your losses to the intended amounts, because market conditions may make it impossible to execute such an Order if the underlying market moves straight through the stipulated price.
- We will not provide you with personal financial product advice relating to Margin FX and CFDs and we will not make Margin FX and CFD recommendations of any kind. The only advice we will give you will be as to how Margin FX and CFD’s work.
- There is no clearing house for Margin FX and CFDs, and the performance of a Margin FX and CFD by ILQ is not ‘guaranteed’ by an exchange or clearing house.
- Our insolvency or default may lead to your positions being liquidated or closed out without your consent. As all deposits lodged with us are held in a segregated client account or accounts, in such circumstances those deposits would attract all legal protections afforded under the Corporations Act. Net unrealised running profits are also held in trust by us (in excess of our contractual and regulatory

requirements) and would normally be similarly protected for your benefit as beneficial owner, unless a Court were not to uphold the trust in relation to the net unrealised profits, in which event you would rank as an unsecured creditor of ours in relation to such net unrealised profits.

- Although by dealing with us you will not be dealing in securities, you need to be aware that you may still be subject to the Corporations Act 2001 and, in particular, the market manipulation and insider trading provisions of the Act.
- The obligations to you under the Client Agreement and the margin FX and CFDs are unsecured obligations, meaning that you are an unsecured creditor of ours.

If our computer records are at variance with your own records or recollection of your trading, the version of events recorded contemporaneously by our computer will prevail and our obligations to each other (including the obligation to pay any money) will be assessed and calculated on the basis that our contemporaneous computer records are correct and are conclusive evidence of the matters they record.

8.3 TELEPHONE

We have no liability to you if this telephone conversation is interrupted before we receive an instruction from you to trade on that quote; nor will we be under any obligation to repeat the quote in a subsequent conversation.

8.4 NATURE OF QUOTE

A quote given to you by one of our traders is not an offer to contract. If you indicate that you wish to trade at the price quoted you will be deemed to be making an offer to trade at the quoted price and our trader will be entitled to confirm or reject that offer. No trade will be effective unless and until such confirmation is given.

8.5 FORMATION OF CONTRACT

Your clicking 'buy' or 'sell' or accepting a quote to buy or sell by telephone will send a message to our traders indicating that you wish to trade on the terms and conditions Indicated. This message will constitute an offer by you to buy or sell at the price and trade size chosen. If we accept the trade we

will send you a message to this effect. Your Trade will not have been placed and no contract will come into existence until we send this message to you. You must wait for this message to appear after sending a 'buy' or 'sell' message and should you not receive this within two minutes you must notify us immediately. If you do not receive our confirmation and you do not notify us as required, you will be deemed to have agreed only the transactions recorded by us. Similarly, if you dispute the contents of any confirmation sent by us to you, you must notify us immediately upon receipt by telephone; if you do not, the transactions recorded by us will be deemed to have been agreed by you.

8.6 CURRENCY

All trades will be conducted in the currency appropriate to the trade and will be converted into US dollars for the purposes of calculating the components of your account summary. All withdrawals will be converted to your denominated currency at the exchange rate which the funds were deposited.

8.7 US DOLLARS

All payments made by you to us and by us to you will be in US dollars unless otherwise agreed.

8.8 POSITION DURATION

With the exception of index futures CFDs and commodity CFDs a position has no inherent limit to its duration and, subject to the payment of margin and other relevant sums, can continue indefinitely. Any position opened by you may be closed by us at the prevailing rate if there is an event of default.

8.9 OPPOSING POSITIONS

- a. You may run opposing positions in margin FX contracts in the same currency pair and a position in a market where you have an opposing position already opened. Both long and short positions will appear in your trade account and they will be treated as two open positions. When you choose to keep two opposing open positions they will be revalued and rolled as an individual open position until you choose to offset or match the two positions.
- b. You may run opposing positions in the same market and a position in a market where you have an opposing position already open will automatically be deemed to be an instruction to close the earlier position. If you have more than one open position in the same market, closing trades will apply to them on a first opened first closed basis, unless otherwise agreed by us.

8.10 DIFFERENCE IN BUY AND SELL PRICES

You understand there may be a wider difference between 'buy' and 'sell' prices you are quoted on closing a position than when it was opened.

8.11 PROFIT AND LOSSES

You further understand that a payment will pass between us equal to the difference in value expressed in US dollars between the opening price of all positions and their closing prices. If you make a profit we must pay a sum to you equal to that profit. If you make a loss you must pay to us a sum equal to that loss.

9. PRICING

We will quote prices which provide an indication of the prices at which we are prepared to deal with you and which are calculated in accordance with Clause 9.7 for margin FX and Clauses 9.4, 9.5 and 9.6 for CFDs. You should note that:

- b. **Other prices:** prices that may be quoted or traded upon from time to time by third parties do not apply to trades and dealings between us and you;
- c. **Different prices:** we, in our absolute discretion, may quote different prices to different clients and trade at different prices with different clients;

- i. Underlying instrument: neither you or us;
- ii. Acquire any interest in, or right to, acquire; and

When you make a request to place an order, we may:

- a. Provide an amended quote of the contract price originally quoted by our trading platform; and/or
- b. Make the quote subject to special conditions and requirements as we consider fair and reasonable and as notified to you by us at the time of the order being considered by us. This may occur, for example, when you place an order outside the normal trading size, or the aggregate of your order and all other orders for a margin FX contract or CFD is outside the normal trading size, or to take account of any change in market conditions since the original quote. Such amended contract price will be determined by us as we consider fair and reasonable having regard to the applicable prices and costs of entering into a transaction of that size on the relevant market. You will not be obliged to proceed with any order for which special conditions and requirements are notified to you by us. For example, we may quote a revised price applicable to the proposed margin FX contract or CFD which you may, at your absolute discretion, accept or reject. The amended quote may no longer be available if there is any delay in acceptance.

9.3 MINIMUM TRADING SIZE

The size of your margin FX or CFDs must equal or exceed the minimum trading size.

- b. **Our pricing:** the contract price of an index futures CFD will be the bid or offer price (whichever is applicable) calculated by us by applying our spread to the mid market price of the relevant equities index futures contract on the relevant Exchange. If the specified date of an index futures CFD is other than a date generally quoted in the market, we will calculate the relevant exchange rate from the available exchange prices for other value dates as we consider fair and reasonable.

If, in accordance with the custom of the relevant market, prices for a commodity are quoted in different currencies in different markets, you may request us to quote a price for the commodity CFD in any of the customary currencies.
- b. **Our pricing:**
 - i. The contract price of a commodity CFD will be a bid or offer price (whichever is applicable) calculated by us by applying our spread to the last traded price of the relevant underlying instrument (being a futures contract over a commodity) on the relevant exchange.

- ii. If, in accordance with the custom of the relevant market, prices for a commodity are quoted in different currencies in different markets, you may request us to quote a price for the commodity CFD in any of the customary currencies.

9.7 MARGIN FX

a. The contract unit:

- i. A margin FX contract will be one currency unit of the primary reference currency.

9.8 YOUR CHOICE TO DEAL

Except where:

- a. We exercise any of our rights to close out a margin FX contract or CFD; or
- b. A margin FX contract or CFD closes automatically;

It is your responsibility to decide whether or not you wish to deal at those prices. If you decide to deal at the prices indicated by us, you may make an offer to us to deal at that price. We may choose, in our absolute discretion, whether to accept or reject any offer to deal made by you.

9.9 ERRORS IN PRICES

- a. It is possible that errors, omissions or misquotes (“material error”) may occur in the pricing of margin FX contracts or CFDs quoted by us, which by fault of either of us or any third party, is materially incorrect when taking into account market conditions and quotes in underlying instruments which prevailed at the time. A material error may include an incorrect price, date, time or margin FX contract or CFD or any error or lack of clarity of any information. If a trade is based on a material error, we reserve the right without your consent to:
 - i. Amend the terms and conditions of the margin FX contract or CFD to reflect what we consider to have been the fair price at the time the margin contract or CFD was entered into and there had been no material error;
 - ii. Close the trade and any open positions resulting from it; or
 - iii. Void the margin contract or CFD from the outset;
 - iv. Refrain from taking action to amend or void the margin FX contract or CFD.
- b. We will exercise the right in Paragraph 9.9(a) reasonably, in good faith and as soon as reasonably practicable after we become aware of the material error. To the extent practicable, we will give you prior notice of any action we take under this clause; but if it is not practicable we will give you notice as soon as practicable afterwards. In the absence of fraud or gross negligence on our part, we are not liable to you for any loss, cost, claim, demand or expense that you incur or suffer (including loss of profits or indirect or consequential losses), arising from or connected with the material error including where the material error arising from an information service on which we rely.
- c. In the event that a material error has occurred and we exercise our rights under Paragraph 9.9(a), we may, without notice, adjust your account or require that any moneys paid to you in relation to the margin FX contract or CFD the subject of the material error be repaid to us as a debt due payable to us on demand.

9.10 PRICE, EXECUTION PROCESS AND TRADING PLATFORM MANIPULATION

If we reasonably believe that you have exploited or manipulated our prices, our execution processes or our trading platform, we may in our sole and absolute discretion without notice to you:

- Enforce the trade(s) against you if it is a trade(s) which results in you owing money to us;

- Treat all your trades as void from the outset if they are trades which result in us owing money to you, unless you produce conclusive evidence within 30 days of us giving you notice under this clause that you have not committed any breach or warranty, misrepresentation or undertaking in this Agreement;
- Withhold any funds suspected to have been derived from any such activities;
- Make any resultant corrections or adjustments to your account;
- Close your account; and/or
- Take such other action as we consider appropriate.

9.11 PRICE LATENCY TRADING AND EA POLICY

In order to ensure the stability of the ILQ platforms and products, trading accounts using price latency trading strategies (we define price latency trading as a method traders use where they open and close trades within 120 seconds, and this price latency trades constitute more than 25% of total trades). ILQ permit the use of EA strategies (and EA is an Expert Advisor, which is an added on software linked to a Meta Trader currency platform and allows for automatic trades under certain conditions), however, EA strategies which use price latency trading, scalping or news event trading may be closed at any time at the discretion of ILQ.

ILQ reserves the right to, and the customer agrees to allow, ILQ to void trades from the outset, terminate your account with us and remit your net deposit where ILQ believes you have engaged in price latency trading and/or EA strategies which involve price latency trading.

No delay or omission on our part in exercising this right, power or remedy provided by law or under this Agreement, or partial or defective exercise thereof, will:

- i. Impair or prevent further or other exercise of such right, power or remedy;

OR

- ii. Operate as a waiver of such right, power or remedy.

No waiver of any breach of this clause 9.11 of this Agreement will (unless expressly agreed in writing by the waiving party) be construed as a waiver of a future breach of the same term or as authorising a continuation of the particular breach.

10. MARGIN

10.1 INITIAL MARGIN

Upon placing a trade that creates an open position you are required to pay us, or have in your account, the margin for that trade as calculated by us ("initial margin").

At the time of opening the position, you must have margin in your account at least equivalent to:

- a. In the case of index, bullion and index future CFDs;

$$\text{Initial margin requirement} = (\text{margin percentage} \times \text{trade size}) \times \text{quantity of contract units} \times \text{contract price} \times \text{margin percentage};$$
- b. In the case of a commodity CFD:

$$\text{Initial margin requirement} = (\text{margin percentage} \times \text{contract price} / \text{minimum point increment}) \times \text{quantity of contract}.$$

10.2 MARGIN WHILE POSITIONS OPEN

In addition to the initial margin, you must have in respect of all open positions on your account margin calculated on the basis of the current contract price then being quoted and determined by us. The amount of margin on your account at any time will be determined as if such payments as are due under this Clause 10 were calculated and deducted from your account on an ongoing basis during the day and based on the current bid or offer contract price (as applicable).

10.3 CONTINUING MARGIN OBLIGATION

You also have a continuing margin obligation to us to ensure that at all times during which you have opened positions your account balance, that is your total net equity, taking into account all realised or unrealised profits and losses ("P&L"), is equal to at least the margin that we require you to have paid to us for all of your open positions. If there is any shortfall between your account balance (taking into account P&L) and your total margin requirement, you are required to deposit additional funds into your account. These funds are due and payable to us immediately on your account balance (taking into account P&L) falling below your margin requirement.

10.4 EXCEPTIONS

The requirements imposed under Clauses 10.1 to 10.3 will vary in the following circumstances:

- a. We have expressly told you that you have an account type that allows for longer payment periods for margin, in which case you must pay margin in accordance with the payment periods that we have advised you;
- b. We have expressly agreed to reduce or waive a part of the margin that we would otherwise require you to pay us in respect of a trade; the period of waiver or reduction may be temporary and must be agreed in writing by us. Any such agreement will not restrict our right to seek further margin in respect of the trade or open positions at any time thereafter;
- c. We agree otherwise in writing, in which case you will be required to comply with such terms and conditions as stated in such written agreement;
- d. When you hold open positions in a margin FX contract or CFD and you place one or more trades in the opposite direction in a margin FX contract or CFD with the same underlying instrument, your margin requirement for all open positions with the same underlying instrument is the larger of the aggregate of the margin requirements for all long positions or the aggregate of the margin requirements for all short positions;
- e. For certain margin FX contracts or options or option related instruments;
- f. If we change the margin percentage under Clause 10.5. In the case of your continuous margin obligation set out in Clause 10.3, you will not be required to pay it if we have extended you a credit facility, and you have sufficient credit to cover your margin requirements. However, if at any time the credit facility is not sufficient to cover the margin requirement on your open positions you must immediately place additional funds in your account in order to fully cover the margin requirements.

10.5 CHANGING MARGIN PERCENTAGE

We may vary the margin percentage, but we will only do so where we reasonably consider it necessary, for example in response to or in anticipation of the following:

- Changing volatility and/or liquidity in the underlying instrument or in the financial markets generally;
- Economic news;
- Changes in your dealing pattern with us;
- Your credit circumstances change; or
- Your exposure to us being concentrated in a particular underlying instrument.

You should note that there may be other circumstances which may give rise to us changing your margin percentage.

10.6 NOTIFICATION OF INCREASED MARGIN PERCENTAGE

We will notify you of a change in the margin percentage by any of the following means: telephone, post, fax, email, text message or by posting notice of increase on our website. Any increase in margin arising from an increase in the margin percentage will be due and payable immediately on our demand, including any deemed demand in accordance with Clause 36.

11. YOUR OBLIGATION TO PAY AND MONITOR MARGIN

11.1 YOU MUST PAY MARGIN

- a. You must pay to us such amounts by way of margin as we may require under this Agreement, including but not limited to margin calculated by reference to this Agreement and the PDS and in order to always maintain the minimum total equity balance.
- b. Your failure to pay any margin required under this Agreement will be regarded as an event of default for the purposes of Clause 15.

11.2 YOU MUST MONITOR MARGIN

- a. Through the electronic facility we will provide you with access to your account and sufficient information to enable you to calculate the amount of any margin required by us under this Agreement and notify you of the total amount of margin due from you in the base currency using our exchange rate. Nevertheless, it is your responsibility when placing any orders over the telephone to ensure that you request all relevant information in respect of your account before placing any orders to open or close a position, including all information in respect of your current open positions. We will not be responsible for any losses you may suffer or incur as a result of not requesting any such information.
- b. It is your responsibility to monitor at all times the amount of margin deposited with us from time to time against the amount of any margin currently required under Clauses 10 and 11 of this Agreement and any additional margin that may be necessary or desirable, having regard to such matters as:
 - i. Your open positions;
 - ii. The volatility of any relevant underlying instrument;
 - iii. The volatility of the relevant market;
 - iv. The volatility of the markets generally;
 - v. Any applicable exchange rate risk; and
 - vi. The time it will take for you to remit sufficient cleared funds to us.

11.3 NO OBLIGATION TO MAKE MARGIN CALL

We are not under any obligation to keep you informed of your account balance and required margin by making a margin call. However, if we do so, the margin call may be made by telephone call, post, fax, email or text message. The margin call is deemed to have been made as soon as you are deemed to have received such notice in accordance with Clause 35. We are deemed to have made a demand on you if:

- a. We have left a message requesting you to contact us and you have not done so within a reasonable time after we have left such a message; or
- b. If we are unable to leave such a message and have used all reasonable endeavours to contact you by telephone at the telephone number last notified to us by you, but have been unable to contact you on such number.

11.4 TIMING OF CHANGES TO MARGIN PERCENTAGE

You agree and acknowledge that any variation of the margin percentage under Clause 9.5 of this Agreement may take immediate effect on and from you being given oral or written notice of the variation in accordance with this Agreement.

11.5 NO ONLINE ACCESS

Where we are not able to provide you on-line access through the electronic facility to information on the account due to circumstances that are reasonably within our control, we will use reasonable endeavours to make a margin call. You accept that in extreme circumstances where your open positions are moving or have moved particularly quickly against you, we may not provide a margin call before exercising our rights to close out your positions under this Agreement.

11.6 YOUR OBLIGATION TO NOTIFY US

It is your responsibility to notify us immediately of any changes in your contact details and to provide us with any alternative contact details and ensure that our margin calls will be met if you will be uncontactable at the contact address or telephone number notified to us. You acknowledge that we are not liable for any losses (including indirect or consequential losses), costs, expense or damages incurred or suffered by you as a consequence of your failure to do so.

11.7 TIME ALLOWANCE FOR FORWARDING MARGIN

We are not obliged to allow you time to forward further funds to meet such margin as is required under this Clause 11 before exercising our right to close out your positions. However, where we, in our absolute discretion, do allow you time to meet your margin requirements that permission will only be effective once it is confirmed in writing by us, and only to the extent specified in the written notice given by us.

12. CLOSING A MARGIN FX CONTRACT OR CFD

12.1 WHEN CAN A MARGIN FX CONTRACT OR CFD (OTHER THAN AN INDEX FUTURES CFD OR COMMODITY CFD) BE CLOSED?

A margin FX contract or CFD (other than an index futures CFD or a commodity CFD, which are together referred to in this clause as "excepted contracts") may be closed out if:

- a. You give instructions to close a margin FX contract or CFD, by entering into an equal and opposite contract as follows:
 - i. **Single position closing:** a single open trade position can be closed by choosing the close button when you execute the trade on line. The contract will be closed and offset by the opposite trade.
- b. We may exercise any of our rights under this Agreement to close a margin FX contract, CFD or any excepted contract at any time before the contract closes under Clause 13.3.

12.2 WHEN CAN AN EXCEPTED CONTRACT BE CLOSED?

An excepted contract can only be closed by those contracts with the same specified date.

12.3 TIME LIMITS FOR CLOSING

Details of the last day and time for closing out a, FX option contract or Futures CFD, are available on request. It is your responsibility to be aware of the last day and time for closing out a particular FX option contract or Futures CFD.

12.4 METHOD OF CLOSING MARGIN FX CONTRACTS OR CFDS BY US

Where we exercise any of our rights under this Agreement to close a margin FX contract or CFD, we will do so by entering into an equal and opposite margin FX contract or CFD on the account.

12.5 CONTRACT PRICE AT CLOSING

Where a margin FX contract or CFD is closed under this Agreement, we will determine the contract price at the time of closing in accordance with the current prices then being quoted by us.

12.6 CONTRACT VALUE AT CLOSING

A margin FX contract or CFD will close at the contract value at the time of closing as calculated by us, which will equal:

$$\text{Contract price} \times \text{contract quantity}$$

And as notified to you.

12.7 TIMING OF PAYMENTS

Any payment due by either us or you under this Clause 12 in respect of dates on or after the closing date will be made by us adjusting the account at close of business on the settlement date.

- If the amount calculated as the contract value is greater than the amount calculated as the opening value, credit the difference to the account; and

- If the amount calculated as the opening value is greater than the amount calculated as the contract value, debit the difference from your account.

13. CLOSE OF BUSINESS ACCOUNTING

13.1 WHEN WE ACCOUNT

Commencing at close of business on the date of the transaction and at close of business on each subsequent business day during the terms of the margin FX contracts (including the closing date), we will account under this Clause 13.

13.2 CONTRACT VALUE

We will calculate the contract value, which will equal
contract price x contract quantity.

13.3 CONTRACT VALUE AT CLOSE

- Index futures CFD: the contract price will be the bid or offer price, depending on whether you are long or short, calculated in accordance with Clause 9.4 (pricing)
- Bullion CFDs: the contract price will be the bid or offer price, depending whether you are long or short, calculated in accordance with Clause 9.5.
- Commodity CFDs: the contract price will be the bid or offer price, depending on whether you are short or long, calculated in accordance with Clause 9.6.
- Margin FX contracts: the contract price will be the offer or bid price, depending on whether you are long or short, calculated in accordance with Clause 9.7.

13.4 VALUATION

If on the date of the transaction:

- The current contract value exceeds the opening value, the short party will pay to the long party such excess;
- The opening value exceeds the current contract value, the long party will pay to the short party such excess.

If, on any business day during the term of the margin FX contract or CFD, (including the closing date):

- The contract value exceeds the contract values on the preceding business day, the short party will pay to the long party such excess;
- The closing value on the preceding business day, exceeds the current contract value, the long party will pay to the short party such excess.

13.5 DAILY SWAPS OF MARGIN FX CONTRACTS AND CFDS (OTHER THAN EXCEPTED CONTRACTS)

When you hold a position or positions overnight in a margin FX contract or CFD (other than an excepted contract) they will be rolled to the next business day which will result in you paying a swap charge or receiving a swap benefit at the ILQ swap rate and the amount depends on our swap rate, being the rates at which you receive or pay interest on positions that remain open overnight. This is a varying rate dependent upon the applicable rate in the interbank markets for the currencies or bullion, the duration of the rollover period, the size of the position and the ILQ spread that is applied at our discretion. The operation of this Clause 13.5 is subject to Clauses 13.7 to 13.10.

13.6 ENTITLEMENT

If you are long on a margin FX contract you may either receive a swap benefit or pay a swap charge, depending on the currency you are long, subject to Clause 13.7 and if you are short on a margin FX contract you may either pay a swap charge or receive a swap benefit, depending on the currency you are short on, subject to Clause 13.9.

13.7 LONG MARGIN FX CONTRACTS

If you are long on a margin FX contract where the bought currency interest rates are higher than the sold currency interest rates you will receive interest at the swap rate if you hold the position overnight and do not close it before the settlement time. This is because you are holding the higher yielding currency. On the other hand, if you are long on a margin FX contract where the bought currency interest rates are lower than the sold currency interest rates then you will pay interest at the swap rate if you hold the position overnight and do not close it before the settlement time. This is because you are holding the lower yielding currency.

13.8 BULLION CFDS

Commodity CFDs over futures contracts do not incur financing costs. Commodity CFDs over physical commodities (such as gold and silver) carried overnight will incur financing costs for the total notional value of the position at the relevant financing rate. If you are short on the Commodity CFDs over futures contract carried overnight you may receive financing from us. However, in certain market conditions we may require you to pay a daily rollover fee where you would ordinarily have received a financing fee.

13.9 SHORT MARGIN FX

If you are short on a margin FX where the sold currency interest rates are higher than the bought currency interest rates you will pay interest at the swap rate if you hold the position overnight and do not close it before the settlement time. This is because you are holding the lower yielding currency. On the other hand, if you are short on a margin FX contract where the sold currency interest rates are lower than the bought currency interest rates then you will receive interest at the swap rate if you hold the position overnight and do not close it before the settlement time. This is because you are holding the higher yielding currency.

13.10 ROLLOVER OF COMMODITY AND INDEX FUTURES CFDS

A rollover will arise in commodity and index futures CFDs when the underlying front month futures contract is approaching the expiry date and we change our CFD pricing fee from the front month to the next serial futures contract. When the new price feed takes effect you will immediately create a gain or loss in your open trade equity. This profit or loss will depend on your position size and direction and the price differential of the expiring contract and the new contract on which the price will be now based. You will be credited or debited with a rollover charge or benefit that will fully offset the effect of the abovementioned profit or loss. For example, if you have made a profit on the change the new contract price feed you will receive a rollover charge which will offset the gain.

13.11 REVALUATION OF POSITIONS AFFECTED BY LIMITED HOURS TRADING

You acknowledge that any reduction by the application of limited hours trading under this Agreement has the result that open positions will be marked to market after close of trading on the primary exchange and your margin requirement will vary accordingly. If you do not wish to accept this additional risk, you may close out any affected contract at any time after notice has been to you.

13.12 SETTLEMENT

In relation to swap charges and benefits, they will be accrued in the swap value field of your open trade position. In the event there are insufficient funds in your account, any amount due to us because of the swap charges becomes a debt due and owing by you to us.

14. STOP LOSS ORDERS AND LIMIT ORDERS

14.1 AVAILABILITY OF ORDERS

Stop loss orders and limit orders are only available on selected instruments. We may refuse to accept any stop loss orders or limit orders on any trade. Such orders, if we do accept, may be placed or cancelled at any time during the trading hours of the exchange on which the underlying instrument is traded.

14.2 MARGIN REQUIREMENTS TO FILL ORDERS

An order which involves an instruction to us to open a trade above a certain price will not ordinarily be filled unless at the time when the price reaches the relevant limit your account contains sufficient trading resources to cover the initial margin for the trade which is to be opened. We may, however, at our discretion proceed to fill such an order notwithstanding that your account has insufficient trading resources to cover the initial margin for the trade which is to be opened. In such circumstances we reserve the right at any time after the opening of the trade to require you to deposit cash in the amount of the required initial margin for that trade. Any such further cash deposits will be payable as margin in accordance with the provisions of Clause 11. A failure to make payment in the time and manner required will be an event of default. We reserve the right to refuse to open a trade in accordance with a limit order if:

- a. There has been an event of default; and
- b. In any other circumstances where we would be entitled to close the trade if it had already been opened.

14.3 LIABILITY FOR LOSSES ARISING FROM ORDERS

You will remain liable for any losses in your account which may be realised as the result of the filling of an order, regardless of the trading resources available on your account at the time the order was filled.

14.4 OUR RIGHT TO IMPOSE A STOP LOSS ORDER

We may impose a stop loss order on any of your open trades where we believe such action is necessary or desirable to limit the losses on any of your positions including, but without limitation where:

- a. We have any reason whatever to think that you will not pay us any money that is or may become due to us; or
 - b. You make any statement to us which we have reason to believe is or may not be true; or
 - a. You fail to do anything that you have undertaken to us that you will do; or
 - c. We are having difficulty in communicating with you and there are grounds for believing that this is because you have failed to take reasonable care to ensure that you are contactable by us at all times. Such grounds will arise if (whether or not in order to make a margin call) we dial all the telephone numbers given by you to us but are unable to speak to you personally and:
 - i. We leave a message on any message-taking facilities offered but we do not hear from you within 30 minutes of leaving the message (or, if we leave more than one, the first message we leave, although if we leave or attempt to leave a message, either with a person who offers to take a message or on a automated message-taking service but for any reason it does not reach you we will nonetheless be deemed to have left a message for you);
- OR
- ii. No message-taking services are offered and we dial all the numbers given by you again after a period of not less than 30 minutes and are still unable to speak with you at once.

14.5 INFORMING YOU OF ORDERS WE IMPOSE

We will as soon as is reasonably practicable after imposing a stop loss order attempt to inform you of it by telephoning you on the number or numbers that you leave with us and:

- a. Informing you personally of the stop loss order or if this is not possible by;
- b. Leaving a message if, and only if, there is an automated message-taking facility or a person who offers to take such a message for you. If a message is left, it will be deemed to have reached you whether or not it has in fact done so. We will also send written notification to you by post and/or email at the addresses that you have given to us. We are under no obligation to take any other steps to inform you of the stop loss order and a failure for any reason to inform you of the imposition of a stop loss order will not affect the validity or enforceability of that stop loss order.

15. EVENTS OF DEFAULT

15.1 WHAT CONSTITUTES AN EVENT OF DEFAULT

The following constitute events of default, which upon their occurrence give us the right to take action in accordance with Clause 15.2:

- a. An insolvency event occurs in relation to you;
- b. You are an individual and you die or become of unsound mind;
- c. You fail to provide any margin or other sum due under this Agreement in respect of any margin FX contract or CFD, or the margin held by us in respect of any open positions falls below our margin requirements;
- d. You are in breach of any warranty or representation made under this Agreement and/or any information provided to us in connection with this Agreement is or has become untrue or misleading;
- e. Any fee due to us is not paid in accordance with this Agreement;

- m. We are so requested by ASIC or any other regulatory body or authority;
- n. The aggregate of your order and all other orders for a margin FX contract or CFD is outside the normal trading size; or
- o. A position limit is less likely to be exceeded.

15.2 WHAT ACTION MAY WE TAKE?

If an event of default occurs we may take all or any of the following actions:

- a. Immediately require payment of any amount you owe us, including margin;
- b. Terminate this Agreement;
- c. Close all or any of your open positions;

- p. Retain any amount owed by us to you against any contingent liability of yours to us or so long as the contingency subsists.

15.3 ADDITIONAL CLOSING RIGHTS

We may also close your account on 14 days' notice in the circumstances set out below. If we rely on our rights under this clause, your account will be suspended during the 14 day notice period and you will not be able to place trades other than those to close existing open positions. If you have not closed all the open positions within the 14 days' notice we are entitled to take any action within Clause 15.2. The relevant circumstances are:

- a. Any litigation is commenced involving both of us in an adversarial position to each other and, in view of the subject matter of or any issues in dispute in relation to that litigation, we reasonably decide that we cannot continue to deal with you while the litigation is pending;
- b. Where you have persistently acted in an abusive manner toward our staff (for example by displaying what we consider to be serious discourtesy or the use of offensive or insulting language);
- c. Where we believe on reasonable grounds that you are unable to manage the risks that arise from your trades.

15.4 OUR RIGHTS TO CLOSE OR VOID

Without limiting our right to take action under Clauses 15.2 and 16.3, we may also close or void individual open positions and/or cancel any order where: we are in dispute with you in respect of an open position. In this case we can close all or part of the open position in order to minimise the amount in dispute; and/or there is a material breach of the agreement in relation to the open position.

15.5 OUR RIGHTS TO SUSPEND ACCOUNT

Without limiting our right to take action under Clauses 15.2, 15.3 and 15.4, we may in our discretion suspend your account pending investigation for any reason. Whilst your account is suspended you will be able to close your open positions but you will not be entitled to place new trades. Circumstances in which we may choose to exercise this right include but are not limited to the following:

- a. When we have reasonable grounds for believing that an event of default has occurred or may occur but believe that it is reasonably necessary to investigate circumstances with a view to confirming this;
- b. When we have reasonable grounds for believing that you do not have a sufficient understanding of the trades which you are placing or the risks involved;

On the other hand, if the aggregate amount that is payable by one of us exceeds the aggregate amount that is payable by the other in the same currency, then the one who has to pay the larger amount must pay the excess to the other, and the obligations to make payment of each party will be satisfied and discharged.

37. MT4 AND ILQ'S MANAGEMENT OF ORDER EXECUTION

Meta Trader (MT4) is a third party solution which can be integrated with our execution services and MT4 facilitates customised or self written scripts to implement client trading strategies.

ILQ provides a download of this third party solution but has no control over the software or any subsequent client customisation.

It is worth noting however that when utilising "instant" orders (the default setting), instead of "market" orders (which permit slippage but reduces risk of re-quotes) clients can manage their downside risk of slippage through a configurable setting "locally" (by inputting the maximum "deviation" from current "local" bid/offer price struck). This totally controls the acceptable slippage (difference between the client side or "locally" displayed bid/offer) which the client is allowing the order to be filled at if it differs from the market price which ILQ has on its execution server upon actual receipt of the order.

The primary reason is the time delay between local prices and execution server prices as well as market volatility at certain times.

Latency can be managed through a number of proactive measures such as using an effective ISP, a VPS (Virtual Private Server) Service and ensuring the local machine (PC or Laptop) has a high capacity and is unfettered by other resource hungry applications which may impact the performance to deliver orders. ILQ recognises that latency is simply a part of the nature of using the internet so will permit slippage (variance between "market" order price and the actual market price upon receipt of the order) of one pip both in ILQ's favour, and out of ILQ's favour. This means that whether ILQ is in or out of the money, we will still fill this order. If a client does not want any slippage whatsoever if out of the money then they can manage this downside risk by a deviation setting of less than one pip i.e. zero.

 - 1.11.5. **Unauthorised use:** We shall not be liable for any loss, liability or cost whatsoever arising from any unauthorised use of the Electronic Service. You shall on demand indemnify, protect and hold us harmless from and against all losses, liabilities, judgements, suits, actions, proceedings, claims, damages and costs resulting from or arising out of any act or omission by any person using an Electronic Service by using your designated passwords, whether or not you authorised such use.
 - 1.11.6. **Markets:** We shall not be liable for any act taken by or on the instruction of a Market, clearing house or regulatory body.
- 1.12. **Suspension or permanent withdrawal with notice:** We may suspend or permanently withdraw an Electronic Service, by giving you 10 days written notice. We will notify you of this action by the medium specified in your account application. The following process would apply in relation to suspension and subsequent closure of your account:
 - 1.12.1. During the notice period (if any):-
 - 1.12.2. We will not close your open trades or limit / stop loss orders already placed (unless we are otherwise entitled to do so i.e. you request that we do so via telephone);
 - 1.12.3. You will not be able to place any new trades or orders nor to give any other instruction, except insofar as necessary to close a trade or to cancel an order in place before the start of the notice period. In particular you will not be entitled to place a closing trade or any order in such a size that would result in a new trade being opened;
 - 1.12.4. All trades will be closed and all orders cancelled on the same day that your Account is closed (or as soon as reasonably practicable thereafter);
 - 1.12.5. All trades will be closed at the ILQ price;
 - 1.12.6. We can effect closures at any time, but closure will generally be effected approximately one hour before the close of the underlying or our trading hours for the market in question;

- 1.12.7. Once your account has been closed you will no longer be entitled to place any trades or orders or to otherwise deal on your account.
- 1.13. **Immediate suspension or permanent withdrawal:** We have the right, unilaterally and with immediate effect, to suspend or withdraw permanently your ability to use any Electronic Service, or any part thereof, without notice, where we consider it necessary or advisable to do so, for example due to your non-compliance with the applicable regulations, breach of any provisions of this Agreement, on the occurrence of an Event of Default, network problems, failure of power supply, for maintenance, or to protect you when there has been a breach of security. In addition, the use of an Electronic Service may be terminated automatically, upon the termination (for whatever reason) of (i) any licence granted to us which relates to the Electronic Service; or (ii) this Agreement. The use of an Electronic Service may be terminated immediately if an Electronic Service is withdrawn by any market or we are required to withdraw the facility to comply with applicable regulations.
- 1.14. **Effects of termination:** In the event of a termination of the use of an Electronic Service for any reason, upon request by us, you shall, at our option, return to us or destroy all hardware, software and documentation we have provided you in connection with such Electronic Service and any copies thereof.
- 1.15. **Idle Prices:** We have an agency execution model and automatically cover all client positions with executing brokers and liquidity providers. On rare occasions the aggregated price feed which we provide to clients can become "idle". We reserve the right to reverse market or instant orders are executed where idle prices have been struck. These cases will be investigated by us and the client advised via e-mail or telephone where possible to notify the client of the trades being cancelled. We will always check to ensure that the reversal does not result in an unintended position being generated i.e. if the order is executed and subsequently reversed to open a position, any subsequent order(s) closing this position would also be reversed leaving the net P&L at zero so the client is not disadvantaged by this reversal due to our onward transmission of invalid prices.
- 1.16. **Misquotes:** We have an agency execution model and automatically cover all client positions with executing brokers and liquidity providers. Although we mitigate the risk of invalid prices feeds reaching clients through utilising a price aggregation system which generates a price from multiple liquidity providers (typically in excess of 10 liquidity providers), there are rare occasions where the prices can become "skewed". In such rare instances if orders are filled at these prices, we reserve the right to reverse orders where idle prices have been struck. These cases will be investigated by us and the client advised via e-mail or telephone where possible to notify the client of the trades being cancelled. We will always check to ensure that the reversal does not result in an unintended position being generated i.e. if the order is executed and subsequently reversed to open a position, any subsequent order(s) closing this position would also be reversed leaving the net P&L at zero so the client is not disadvantaged by this reversal due to our onward transmission of invalid prices.

Stale quotes and misquotes policy: ILQ's quoted prices may on rare occasions become "stale" or "skewed". ILQ reserves the right to cancel orders executed on idle or skewed prices. ILQ will actively monitor/report and investigate such trading activity and in the event that trades are being cancelled will notify the client accordingly. ILQ will pursue the fair treatment of its Customers and will use its best endeavours to make sure cancellations are performed fairly and that the client is not disadvantaged by the cancellation i.e. no inadvertent positions are left open and the client's net position is in line with the client's positions at the time of correction.
